AI Solutions That Take Your Business to the Next Level

We design, develop, and implement automation tools that help you work smarter, not harder

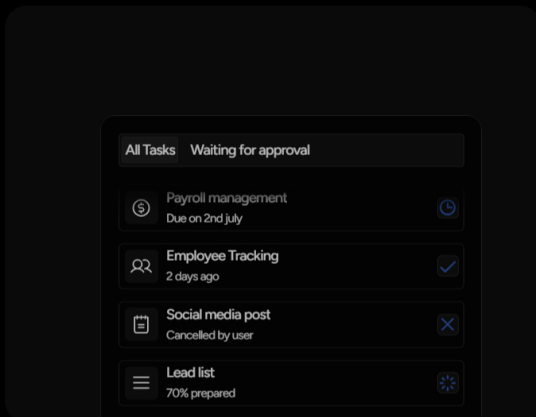

1. AI Workflow Automation

Automate repetitive tasks

AI-powered TaskBots streamline internal workflows — automating data entry, reporting, approvals, and client follow-ups. Designed to eliminate manual effort, improve accuracy, and save hours across daily operations.

Internal Task Bots

100+ Automations

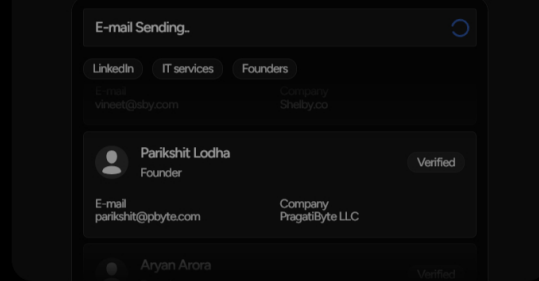

2. AI Email Automation

Emails so human, it's unsettling.

AI-driven email automation that analyzes prospect data, website content, and tone to craft personalized outreach that sounds human and converts. Ideal for scaling campaigns without scaling workload.

AI Email Engine

Website Intelligence Scraper

ID	Name	Email	Role	Status
1	Maya Banerjee	maya.b@exampl...	Admin	Active
2	Akash Patel	akash.patel@ex...	User	Active
3	Ruhan Sharma	ruhan241@exam...	User	Inactive
4	Aishwarya Pal	pal.aish@exampl...	Moderator	Active
5	Rohan Jha	rohan.jha@exam...	User	Active

3. AI CRM Automation

Every lead. Every call. One brain.

A connected CRM that unifies calls, ads, forms, and client interactions in real time. Automates lead scoring, follow-ups, and performance insights — ensuring no opportunity slips through the cracks.

Leads

Content

Social post

4. AI Calling Agent

AI that calls, books, and closes.

A real-time AI voice system for outbound and inbound calls. Generates natural conversations, schedules meetings, and manages lead qualification automatically — built for 24/7 communication.

Conversational AI Voice

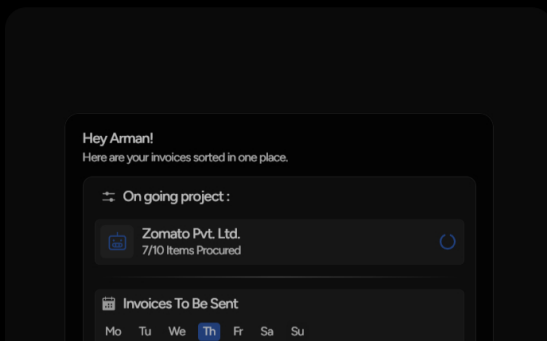

Smart Call Scheduling

5. AI Invoice Automation

Invoices that send themselves.

AI-driven invoicing that creates, sends, and tracks bills across clients and currencies. Handles payment follow-ups, reconciliations, and accounting syncs with zero manual input.

No meeting today.

Smart Payment Automation

Instant Invoice Sync

6. AI Content Generator

AI that writes, designs, and delivers.

An intelligent content system that creates blogs, social media posts, ad copy, and visuals in your brand voice. Automates ideation, drafting, and optimization — built for marketers, creators, and teams scaling content 10x faster.
